## Career Objective

---

Enthusiastic and detail-oriented frontend developer with a strong understanding of software engineering principles, user interface design, and optimization. Skilled in HTML, CSS, JavaScript, React.js, and RESTful APIs. Passionate about solving real-world problems through clean, maintainable code. Experienced in collaborative software development and independently managing project tasks.

## Education

---

**Bsc (computer science)**

2020 – 2023

CGPA: 7.9

Vararachandrapuram

## Technical Skills

---

- **Web-Technologies:** HTML, CSS, JavaScript
- **Frameworks/Libraries:** Bootstrap, ReactJs
- **Cloud Services:** Firebase(Authentication, Firestore Database)
- **Database:** MySql
- **Developer-Tools:** VS Code, Git, Git hub,Postman

## Projects

---

### Car-Rental Web Application

- Developed a responsive car rental web application using React.js with Firebase Authentication for secure login, sign-up, guest access, and user profile management with Firestore.
- Implemented car listings where users select vehicles, enter pickup and drop locations, and see rental costs dynamically calculated based on the number of days.
- Used React Router's useParams and useLocation hooks to fetch selected car data and pass booking details between pages seamlessly.
- Created and deployed a custom RESTful API using JSON Server on Render to fetch and manage car details throughout the app.

### Fusion Fits

- Fusion Fits is a responsive e-commerce shopping application offering a wide range of women's, men's, kids', and newborn clothing. Built with HTML, CSS, JavaScript, and Firebase, it supports both authenticated users and guest browsing.
- Key features include dynamic product listings, real-time search, category filters, add to cart, quantity updates, and secure login with Firebase Authentication for a safe and personalized experience.
- For data persistence, cart details are stored using localStorage, ensuring items remain saved across sessions. The app provides a mobile-friendly, interactive UI for a smooth shopping journey.

## Certifications/Achievements

---

**TCS iON Career Edge - Young Professional:** Trained in communication, resume writing, IT fundamentals, and professional behavior essential for software engineering roles.
